INTRO:

If you've been feeling bloated, then you know more than anyone that you need to cleanse the junk from your body. It's not always easy picking which path to take to cleanse your body for the results you want. But, I've tried to make it super simple with this 1-Day Recharge.

I don't believe in deprivation, so you should not feel deprived in any way. In fact, you should feel quite the opposite.

The reality is, no matter how clean we eat, we live in a world full of toxins. Before we even open our mouths to take a bite of food, we are exposed to vehicular and industrial pollution in the air, and there are toxins in our cleaning products and cosmetics, not to mention the havoc wreaked on our bodies by stress. So, the question is not "am I toxic?" but rather "how toxic am I?"

Are you ready to get rid of those toxins that cause fatigue, weight gain, brain fog, body aches, and loss of sleep?
